To all our amazing sponsors, delegates, leaders, and crew — thank you from the bottom of our hearts. This event would not have been a success without your support, presence, and dedication. We truly appreciate you!

Exceptional support from **BICSI Leaders** across the USA, Japan, Korea, Singapore, Malaysia, Vietnam, and the Philippines, serving as volunteers, moderator, speakers, trainers, and Skill Challenge judges — showcasing BICSI's strong regional and global collaboration.

Bicsi SOUTHEAST ASIA

Moments that inspire,

Event Highlights

BICSI SOUTHEAST ASIA

Highlights of the Event:

1) Pre-conference
The pre-conference session featured industry professionals and Certified Trainers from Korea, Japan, the USA, the Philippines, and Singapore. They shared valuable insights about BICSI, its globally recognized courses, and professional certification pathways.

2) Government and Academic Support
The event is honoured to receive strong support from government agencies and universities, reflecting a shared commitment to developing ICT talent and advancing smart infrastructure initiatives across the region.

3) Teamwork & Leadership in Action
The event was made possible by a dedicated crew and volunteer teams from the Philippines, Guam, Japan, Korea, Malaysia, Singapore and Vietnam stepping in to support where needed, ensuring everything ran smoothly behind the scenes.

BICSI SOUTHEAST ASIA

Suggestion for Future Event Improvement

1) Consistency in Design Quality across all materials
Strengthen consistency in design quality and execution across all event materials. While design was provided, some were not fully adopted during implementation, resulting in slight inconsistencies. Moving forward, closer coordination and adherence to approved designs will help ensure a cohesive visual identity.

2) Further diversification of the attendees from different industries
Aim to further diversify attendees across different industries to create a more dynamic exchange of ideas, perspectives, and opportunities for collaboration.
